PROFESSIONAL SUMMARY

Logistics Operations Coordinator candidate with 20+ years in receiving, outbound, and inventory control across Amazon and FedEx environments. Verifies physical inventory against system records, resolves shipment discrepancies, and supports outbound compliance and labeling on regulated shipments. Completing B.S. in IT & Data Management at Strayer University (Class of 2027, GPA 3.5). Available for site-based coordinator roles in Monaca and greater Pittsburgh area.

EXPERIENCE

Materials Logistics & Inventory Projects

Oct 2023 – Present

Self-directed materials logistics projects · Beaver County, PA

- Verified incoming and outgoing inventory against system records; documented discrepancy data for supervisor review.
- Built reconciliation workflows comparing physical counts to ERP/WMS records for material traceability and inventory accuracy.
- Recommended process improvements to reduce manual shift close-out time on count-vs-system comparisons.
- Completed Strayer coursework in database administration and project management while pursuing coordinator roles.

Logistics Operations Associate

Mar 2016 – Dec 2023

TrueBlue staffing · Amazon & FedEx placements · Beaver County, PA

- Processed 3,500+ units per shift across inbound, outbound, and sortation workflows at Amazon and FedEx facilities.
- Verified outgoing shipments against manifest and system records; followed outbound labeling and compliance procedures on regulated and hazmat-labeled packages.
- Resolved physical-to-system discrepancies (mislabels, short shipments, receiving errors) before downstream operations were impacted.
- Supported cycle counts and inventory audits during peak-volume surge periods with competing shift priorities.
- Coordinated with supervisors to implement corrective procedures for recurring inventory discrepancy patterns.

Warehouse & Fulfillment Operations

Earlier career

Contract site assignments · Southwestern PA

- 10+ additional years in warehouse operations prior to documented placements above (20+ years warehouse-adjacent total).
- Inbound, outbound, pick/pack, sortation, and inventory control in Amazon/FedEx-scale environments.
- Floor-level discrepancy resolution and cycle-count support that built the foundation for later reconciliation work.

EDUCATION

TRAINING & CERTIFICATIONS

B.S., IT & Data Management

Strayer University · Class of 2027 · GPA 3.5

Coursework: Database Administration, Python, Project Management, Cybersecurity. Formalizing 20+ years of logistics operations.
